

HOW MUCH DOES AN AVERAGE RENOVATION COST?

Renovation costs rely on many different factors. No two houses are the same and so no two renovation costs are the same. But when you are thinking of doing a renovation, it's hard to know what kind of costs to expect. This brochure aims to give a rough indication of costs, so that you might know what to expect.

Kitchen Renovation

An average kitchen renovation would usually range between \$25,000 to \$50,000+ (excluding appliances) depending on the size and finishes chosen. If you have a butlers pantry and require new flooring then costs can range between \$40,000 to \$90,000+ (excluding appliances). This cost includes removal of the old kitchen, new cabinetry, hardware, benchtops and all the trades required to do the work. The quotes we provide are detailed and itemized and our team will always be available to discuss different pricing options with you.

Bathroom Renovation

Depending on fixtures and fittings, tile selection and plumbing locations, costs

for a bathroom renovation can vary.

The average bathroom or ensuite can range from \$20,000 to \$50,000+

(excluding fixtures and fittings). If there is a particular look you are after, have a chat to our designers and they will be able to suggest different price solutions.

Laundry Renovation

Costs for a laundry renovation vary depending on the room size, tile selection, amount of cabinetry, finishes and hardware. An average laundry renovation will range from \$16,000 to \$30,000+ (excluding appliances). Our designers are always more than happy to discuss the different pricing options for what it is you are looking for in your laundry renovation.
